Website Link: _____

*Company Name printed on shirt/media.

Building the World of Tomorrow

FIRST Robotics Team 999 at Cheshire High School is preparing the science and technology leaders of the future. After their hands-on training and real-world experience at FIRST Competitions, many of our team members go on to careers in science, technology, engineering and math (STEM). Building a robot exposes Team 999 members to science and technology and so much more. This experience helps our team gain valuable skills like critical thinking, problem solving, communication and leadership.

**Thank you
For Your
Support !**
